Babies of Homelessness Receives Parenting Support Award From Best Starts for Kids

KING COUNTY -- Babies of Homelessness is proud to announce we are one of 22 community-based organizations to receive a Parenting Supports award granted by Best Starts for Kids! The award will allow us to expand our partner delivery program in King County, which provides diapers and wipes to low-income families with young children.

Best Starts for Kids is a voter-approved initiative that supports every baby born or child raised in King County, so that they reach adulthood happy, healthy, safe, and thriving. Through comprehensive support from prenatal development to adulthood, Best Starts for Kids catalyzes strong starts in early childhood and sustains those gains as kids progress to adulthood, launching King County's kids on a path to lifelong health and well-being. To date, Best Starts for Kids has served more than half a million King County children, youth, young adults, and families in partnership with more than five hundred community-based organizations.

Babies of Homelessness will deliver our 1 MILLIONTH total diaper by the end of this year. Currently, we have delivered more than 400,000 diapers this year alone. To read more about the Parenting Supports Award,
